

NAVI GOOMER - 10-F

DATE: 1.9.25

My name is Navi Goomer and I have been feeling neglected and facing abuse by my father, Mr. Maneesh Goomer and also my brother, Mr. Dev Goomer (20 years old). The concerns have been happening since 6th grade (2021) but, it became much worse since last year when I was 13 (presently 14).

1 FATHER: MANEESH GOOMER (98111 85067)

- Papa forces me to drink alcohol but I ~~am~~ refuse
- He made my brother start drinking alcohol with him when he turned 16. They often drink alcohol together
- ~~When Dev~~ He also forces my Mother to consume alcohol with him
- Verbally, he often yells, abuses, makes inappropriate ~~comments~~ comments around my body (he calls me words like fat, b hains)
- He often threatens me by saying things around honour killings and he says that reporting this behaviour will not help since he has a law background.
- After drinking he often yells and fights with everyone. He threatened to kill ~~my~~ me and my best friend since he knows I tell her everything he did.
- He's often commenting on my clothes and fights and asks me to change them.
- Physically, My Father slaps me and hits me on several meaningless occasions
- He has also slapped my behind multiple times and has also tried to graze my inner thigh.
- He has ripped 2 of my School notebooks when he was drunk.

- He often pulls my hair when he's angry.
- He has tried to strangle me when he was angry, and also scratched me with an exacto knife when I was wearing ~~so~~ shorts at home.

2. ~~Mr~~ DEV GOOMER (8376873128)

- Whenever he consumes alcohol with My Father or alone he gets aggressive and violent with me like scratches me with an ~~exact~~ exacto knife and hit my ~~for~~ body with his Kadha multiple times
- When I was on my period, He kicked me on my stomach.
- He is ~~const~~ constantly trying to check my location, read my ~~private~~ private conversations, and goes through my personal belongings regularly.
- Dev has made very inappropriate, ~~sexual~~ sexual remarks for me like "RANDI" and "BEHEN KI LODI". He is also making comments around my weight and what I wear.

~~use~~

3. Most of these instances happen in the absence of my mother and even when I share ~~to~~ my experiences with her, She brushes it off and denies that It didn't happen. She also blames me for a lot of these things.

4. Because of everything happening at home, with my father brother and mother, I feel really unsafe and alone at home. I am worried that these concerns will not stop and maybe even increase in the future, which is why I want to report the same to a child helpline for which I require the School's support.
